

Why We Fundraise

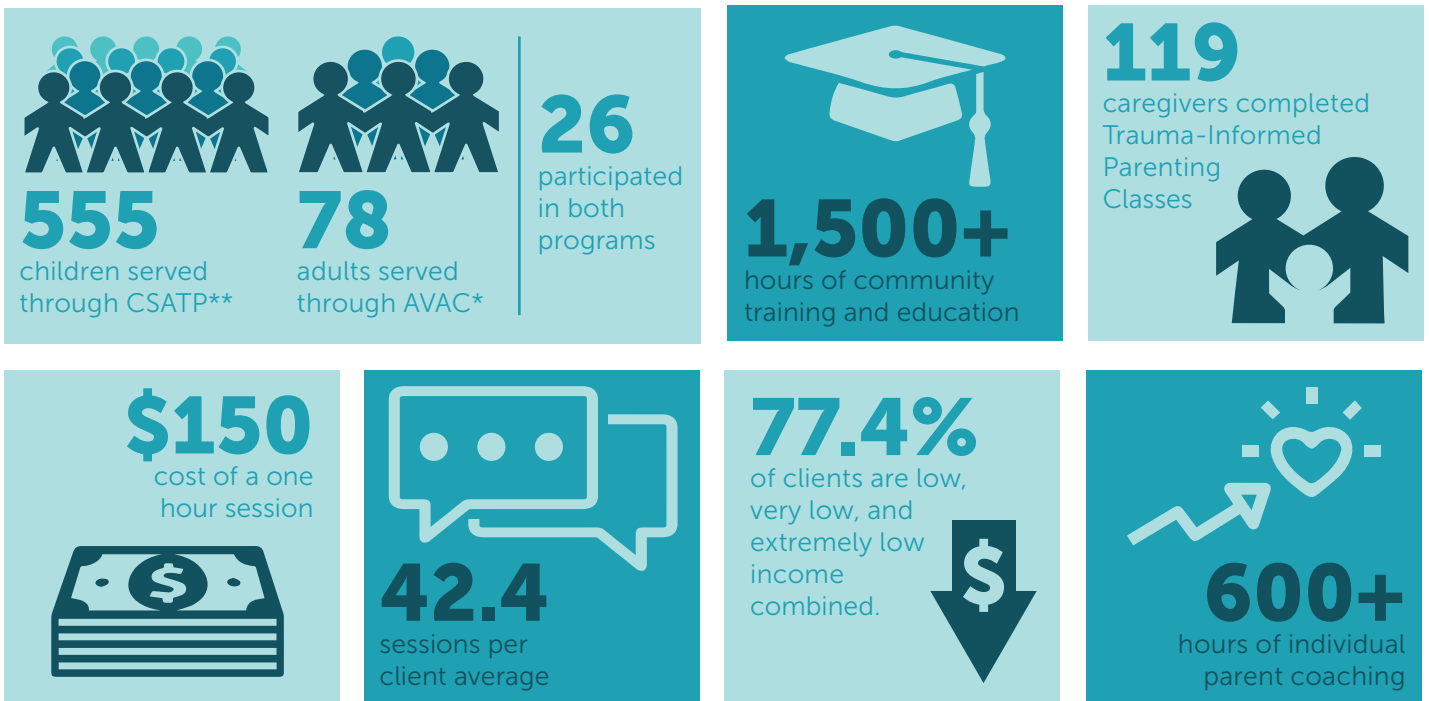

ChildSafe never turns anyone away for their inability to pay for treatment. Every child and family deserves to have access to proper therapy regardless of their socioeconomic status.

- 36% of clients served are considered extremely low income (less than 30% of the average median income).
- 78% of our clients pay little to no money out of pocket for treatment.
- All funds we raise from events, grants, and sponsorships goes to providing direct care to clients in our community.
- Our cost for a one-hour session is \$150 per hour.
*This rate includes everything: payroll, benefits, overhead like our mortgage, insurances, utilities, and supplies.
- On average, each client receives 40 sessions for their course of treatment per year and 82 weeks of treatment total.

Over 2025 and with the just announced 2026 cuts combined, ChildSafe is experiencing a 54.7% decrease in Victims of Crime Act (VOCA) funding, our largest grant. VOCA funds are grants to state and local programs that assist victims of crime. These abuse survivors might otherwise be unable to find financially accessible and age-appropriate help. VOCA funding impacts three quarters of our clients.

When we say we can't do this work without you, we mean it! It's our sincere appeal to help children have the best possible start in life so they can be mentally healthy, happy, and productive adults with bright futures.

In 2024, ChildSafe continued to walk alongside survivors of childhood trauma, expanding our reach and preparing for even greater impact in the years ahead.
